

## M'ADOO TO RECEIVE ESTIMATES TODAY

Will Be Largest Ever Submitted to a Secretary of Treasury in Peace Time

MAY BE \$1,240,000,000

Congress Will Be Obligated to Provide Additional Revenue Legislation if it Agrees

P. O. ESTIMATES INCREASE

WASHINGTON, Oct. 14.—The largest estimates of government expenditures ever submitted to a secretary of the treasury of the United States in time of peace will be presented for the next fiscal year tomorrow, for discussion by congressional committees in advance of the regular session. They will be examined by President Wilson and his cabinet next week.

With an estimated increase for national defense of about \$150,000,000 over last year, together with the cost of new tasks imposed on the state department and other branches of the government by reason of the European war it is probable the amount of expenditures will be augmented to a total of about \$1,240,000,000.

Must Provide More Revenue.

If congress agrees to the administration's program for strengthening the army and navy, it will be obliged to provide for additional revenue legislation or the executive branch of the government must issue bonds.

Although no estimate of receipts for the fiscal year beginning July 1st, 1916, has been made by Secretary M'Adoo, officials now are convinced they cannot count upon more than \$750,000,000 for the twelve months and some believe the total income will not go over \$700,000,000.

Congress is to be asked to pass two revenue measures early in the coming session, one extending the emergency war tax, which expires December 31st, next, and the other providing for retention of the present duty on sugar beyond next May when it would go on the free list.

Passage of these measures, however, would not increase the present revenues. With both in effect at present there has been a deficit of \$35,000,000.

State Department Requires Increase  
Estimates for the government departments, except state, war and navy, are practically the same as last year. Additional force in the diplomatic and consular service and at the state department and extraordinary expenses abroad in the work being done by American embassies and legations, will require an increase of about \$1,300,000 for the state department. The \$2,000,000 appropriated by congress as an emergency war fund for use of that department has been nearly all spent but much of it already has been or will be reimbursed, so that the reappropriation will not represent any real expense.

The ordinary disbursements of the government last year were about \$732,000,000. If the receipts are as much as \$750,000,000 in the coming year and the appropriations of all government departments but the state, war and navy remain the same, there still would be with the added budget for national defense an estimated deficit of more than \$135,000,000.

The secretary of the treasury now has authority to issue Panama canal bonds to the amount of \$240,000,000. That would be a temporary remedy, however.

Estimates for the department of commerce will show an increase over last year's total \$16,774,000, if they are agreed upon in the form now before Secretary Redfield.

Principal Increase from Commerce Bureau.

The principal request for more money will come from the bureau of foreign and domestic commerce, which desires to take advantage of the opportunity afforded by the war to extend its foreign trade organization. The department of labor contemplates few changes in its estimates, which last year amounted to \$4,443,000.

Secretary Wilson is considering a reduction in the estimates for the bureau of immigration which has found its activities curtailed by the falling off of immigration caused by the European war. The estimates for the postoffice department will be slightly above the \$299,000,000 estimated for the present year. The increase is credited to the automatic promotions of carriers and clerks provided for by congress, increased pay for railway transportation in the middle states as a result of the new weighing statistics and the natural growth of the system.

The estimate for ocean mail transportation is the same as the current appropriation, no allowance being made for the growth of the service as an offset to the war. The estimates for the department as a whole were prepared with a view to re-

## ESTABROOK SPEAKS AT PREPAREDNESS BANQUET

CONDEMNS CERTAIN UTTERANCES OF WILSON AND BRYAN

New York Attorney Asserts that to Say We are too Big or too Proud to Fight in Self-Defense is Absurd and Puerile—Terms Bryan's a "Wandering Voice."

Davenport, Iowa, Oct. 14.—Condemnation of certain utterances of President Wilson and William J. Bryan, regarding citizen soldiery and non-resistance and of the LaFollette seaman's act as tending to prevent creation of a merchant marine auxiliary of the navy was voiced here tonight by Henry D. Estabrook, a New York attorney, at the banquet of the Mid-West conference on preparedness.

Mr. Estabrook, Senator Cummins of Iowa and several others spoke to an audience containing many members of the National Congress as well as representatives of most of the principal cities of Iowa and Illinois.

Republic is Worth Fighting For.  
Mr. Estabrook said the republic was worth fighting for if attacked and described the European war as "the outcome of a family feud among royal kinsmen."

"No nation threatens us in so many words," he said, "but who is oblivious to hints and intimations? We boast our strength to repel attack when we are weaker than dish water. While other nations have been preparing for aggression we have not made ready even for defense."

"Shall we continue to listen to a wandering voice as imbecile as our condition? When this voice was recently removed from the councils of our government, we thought good easy souls, we had gotten rid of it."

Opposed to "Half-Preparedness."

"And yet I would heartily advocate Mr. Bryan's policy of non-resistance rather than any policy of half preparedness. I had rather scrap every gun and warship we own if we are not to add to them. For if we are without strength to oppose invasion we could at least claim the privilege of the weak and surrender, with a moral claim to the pity of the invaders, whereas to fight inadequately armed and with a certainty of losing would be nothing short of murder."

"Today we are too big or too proud to fight in self-defense, is, with all respect to the estimable but mistaken gentlemen who said it, absurd and puerile. To say that a mob of a million or so untrained citizens would leap to arms and put to flight the bullet-tested soldiery of Europe and Asia is worse than puerile—it is murderous stupidity."

"The machinations against this government at the moment are more subterranean than submarine. Our duty is to defend against both. We must forthwith spend money for defense and lots of it. We must know we are safe even from the temptation of attack. Our peace and future happiness depend upon this assurance."

Quotes Washington's Advice.

Mr. Estabrook then quoted Washington's advice to prepare for war in time of peace and said that the well adjusted plan which he first presented advocated should be based primarily upon the advice of military experts. He announced himself, as opposed to a large standing army because, he said, history had showed that governments supporting such armies always had been more or less dependent for existence upon the good will of the armed organizations. He added however, that in no instance had a big navy ever turned against the government; which supported it. He said further that there is "no better auxiliary to a navy than a merchant marine, nor is there any instrumentality that contributes more to the glory and riches of a country."

This brought him to consideration of the LaFollette act which he characterized as "the stupidest piece of legislation in the history of the country."

"It should not be spoken of as an act to encourage our merchant marine but to abolish it and turn our shipping over to Japan, for that will be the sum total of its accomplishment," said Mr. Estabrook.

TELLS LAWYERS POINT WAS DISPOSED OF.

Washington, Oct. 14.—During argument in the supreme court today on the income tax cases Chief Justice White told the lawyers that the contention that the additional or sur-tax imposed upon incomes of more than \$20,000, made the law unconstitutional had been disposed of in the inheritance tax decisions. This is one of many points urged against the law by those attacking it.

sumption of normal peace conditions.

In the interior department the estimates are less than the appropriation of \$210,000,000 for the current year, excluding \$8,000,000 for construction of the government railroad in Alaska.

Secretary Houston had not completed tonight his estimates for the department of agriculture but they will not vary much from the present appropriation of about \$24,000,000.

## LABOR SECRETARY ADDRESSES BANKERS

Opposes Compulsory Arbitration of Disputes Between Capital and Labor

WILSON OPPOSES STRIKE

Cabinet Member Advocates a Business-Like Council of Employers and Employees

AISTHROP MAKES REPORT

JOLIET, Ill., Oct. 14.—William B. Wilson, secretary of labor, declared himself to be an opponent of compulsory arbitration of disputes between capital and labor in an address before the delegates to the twenty fifth annual convention of the Illinois Bankers' association which opened here today.

"If an employer is compelled to operate his plant," the secretary said, "even though the award would mean the operation at a loss, it would only be a question of time until his entire capital would be absorbed. If an employee is compelled to work against his will and on terms unsatisfactory to him, it would be a species of compulsion contrary to the spirit of our institutions."

Against Strike and Lockout.

Mr. Wilson also announced himself as an unbeliever in the strike and lockout advocating in their stead a business like council of interested parties.

"Let employers and employees meet around the council board like sensible business men," he suggested, "and decide on a mathematical basis just what share each is entitled to."

J. S. Aisthorpe, president of the association told the members that business is strong and growing stronger. The same sentiment was expressed by many of the delegates. "Underlying business conditions in spite of the vicissitudes of the last twelve months, are sound," said Mr. Aisthorpe, who also is president of the First Bank & Trust company of Cairo.

"The prospects favor continued improvement."

This assertion of their president was greeted with applause by the 1,500 bank delegates.

Aisthorpe Makes Report.

In his annual report President Aisthorpe urged the perpetuation of the association's work for better roads in Illinois, betterment of agriculture conditions and an investigation and reform of taxation legislation. He discouraged the admission of state banks as members of the federal reserve system on the grounds that their membership was unnecessary and of no direct benefit to them, unfair to the national banks which are compulsory members and conducive to a conflict with the state laws.

Illinois banks appear to have abundant resources. Mr. Aisthorpe said, to provide for the demand in financing the crop movement this year in the state.

M'ADOO ASSERTS DEMOCRATS SAVED COUNTRY FROM DISASTER

Secretary of Treasury Speaks at Rally of Missouri Democrats at Cape Girardeau.

Cape Girardeau, Mo., Oct. 14.—"A Democratic president and a Democratic administration saved this country from disaster in 1914," declared Secretary of the Treasury M'Adoo in an address at an rally of Missouri Democrats here tonight. "And we did not ask Wall street for advice," he added.

"Instead Wall street came to us for advice, as it should do."

Secretary M'Adoo told the huge audience that "the Republicans, after thirty of forty years control of the country, left an imperfect currency system which threatened the nation with disaster when Mr. Wilson came to the white house."

The greatest achievement of the present administration, he said, was the reform of the currency system.

"The administration under President Wilson," he added, "has given the nation every national right and has not gone to war to do so."

"Can I borrow money cheaper under this new system?" one farmer asked.

"You should," said the secretary. "Your banker should now give you better discount rates. If he does not, write us in Washington."

## DAWES TESTIFIES IN MUNDAY TRIAL

Relates His Attitude in \$1,250,000 Transaction in Changing Bank

M'DOUGAL IS ON STAND

Former Chicago Clearing House Examiner Tells of His First Report on La Salle National

STRONG REPRESENTATIONS

MORRIS, Ill., Oct. 14.—Charles G. Dawes, president of the Central Trust company of Illinois and former comptroller of the currency of the United States, testified today in the trial of Charles B. Munday for alleged wrecking of the LaSalle Street Trust & Savings Bank of Chicago, in relation to his attitude in the \$1,250,000 transaction incident to changing the defunct bank from a national to a state institution.

Did Not Arouse Suspicion.

"There was nothing in the transaction to arouse my suspicion," Mr. Dawes testified. "A cashier's check on a bank supposed to be solvent, the stock of which is selling above par, is not to be questioned."

The testimony of Frank M. Spohr, auditor of the defunct bank had brought out that \$1,250,000 had been obtained from Mr. Dawes bank at the time of the change from a national bank to a state bank of the Lorimer-Munday institution.

"Mr. Lorimer called at our bank on the morning of October 21st 1912," Mr. Dawes said. "He informed us that the bank examiner had approved the conversion of the LaSalle National bank and asked me if the Central Trust company would furnish the necessary currency to satisfy the examiner. I said it would. He asked me what the compensation would be and I told him there would be no charge."

"I sent for our cashier, my cousin, W. R. Dawes, and explained the transaction to him, telling him to do what was necessary. The whole conversation did not take more than ten or fifteen minutes. I was not present at the counting of the money."

The witness was given permission to explain the manner in which a bank ordinarily is organized, explaining that the bank examiner is supposed to count the actual cash covering the capital stock and surplus of the bank.

"If this had been a national bank being organized," Mr. Dawes said, "an examination of the assets would have been required. As it was, the transaction was quite customary."

W. R. Dawes testified that William Lorimer, Charles G. Fox and the state bank examiner were present at the counting of the cash in the Central Trust company officers. The transaction, he said, covered only a few moments, when the money was returned to the vaults and the LaSalle street bank's check was returned to Lorimer and Fox.

James B. McDougal, governor of the federal reserve bank of Chicago, and an examiner for the Chicago Clearing House Association at the time of the transfer of the Lorimer-Munday national bank to a state concern, testified that his first report on the LaSalle Street National Bank said there was a "tendency to extend credit where it was not warranted."

Call Attention to Adverse Report.

The clearing house, he said, adopted a resolution calling the attention of the bank officers to his adverse report. A second examination showed only a slightly improved condition he said and the clearing house made a stronger representation to the Lorimer-Munday officials adding, the witness said, that "such large loans to the president and vice-president was not good banking."

Mr. McDougal testified that at that time Lorimer had borrowed \$400,000, Munday \$184,262, and Gallagher and Lorimer (partners in the Lorimer-Gallagher Construction company) \$75,000. The loans to Munday, the witness said, were the only ones partly secured. The witness said a conference was held with a committee of the clearing house association at which Munday admitted according to his testimony all the things found by the examiner and incorporated by him in his reports to the clearing house.

"I learned from the condition of the bank that Munday did not know much about banking," Mr. McDougal said. "From him, however, I learned that he was interested in a great many banks and had taken an active part in the management of them all."

CHARGED WITH ABANDONMENT.

Ross Nunn was arraigned in Justice Dyer's court Thursday morning on the charge of wife and child abandonment. He gave bond in the sum of \$200 for his appearance Thursday, Oct. 21, at 9 o'clock a.m.

## URGES SIMPLIFIED COURT PROCEDURE

AMERICAN PRISON ASSOCIATION COMMITTEE MAKES REPORT

Four Reforms Previously Recommended Are Again Emphasized—Proposes Law to Compel Enforcement of the Law.

Oakland, Cal., Oct. 14.—Simplified court procedure in criminal cases, abolition of the unanimous jury verdict except in capital cases, extermination of commercialized crime and drastic penalties for non-enforcement of laws were among the recommendations made to the American Prison Association today by its standing committee on criminal law. The report was delivered by James P. Gregory, judge of the criminal court of Louisville, Ky. Four reforms previously recommended were again emphasized. These were:

1. A wider discretion to courts in dealing with criminals who by reason of mental or physical deficiency should not be held to the same degree of responsibility as normal persons.

2. Simplified pleadings in criminal cases and adoption of easy methods of amending such pleadings.

3. Abolition of the requirement of an unanimous verdict by juries except perhaps, in capital cases and continuance of trials when one juror becomes disabled or disqualified.

4. Legislation permitting, under reasonable restrictions, compulsory return of witnesses crossing a state line and remaining beyond the jurisdiction of a trial court.

"Your committee is strongly impressed with the growing importance of adopting more effective measures for the checking of criminalizing influences," continued the report. "Perhaps no reform in this direction would be more far-reaching, an one by which commercialized crime could be exterminated. There is no influence more pernicious than tolerance of practices, subversive and defiant of law, indulged in by those who find such practices profitable. Misdemeanors and crimes are not infrequently committed openly because the perpetrator can either pay the fine involved, and make a comfortable profit; or by reason of a deluded or debauched law-enforcing power, safely calculate on escaping the penalties announced by law."

"We conceive that there is no remedy for this evil except a radical quickening of the public conscience. No man can do his whole duty as a good neighbor or a good citizen who contents himself by merely leaving the duty of law-enforcement to public officials."

"It is often said that what we need is not more laws for reaching evil-doers, but enforcement of the laws already enacted. One more law, however, might be helpful—a law to compel the enforcement of law. With a genuine awakening of the public conscience, and such law that can, under reasonable safeguards against abuse, be invoked by the public independent of any official action, or concurrent power both to the proper officials and the public, authorizing the summoning of faithless public officials before the bar of justice to answer for their protection of criminal practices, or lack of diligence in their discovery and extermination, supported by penalties of removal from office, disfranchisement, and disqualification to hold office in the future, an effective remedy would be found for the most pernicious and prolific breeding places of crime."

GOVERNOR DUNNE COMMUTES DAGENHARDT'S SENTENCE

SPRINGFIELD, Ill., Oct. 14.—Acting upon the recommendation of the board of pardons, Governor Dunne commuted the sentence of Benjamin Dagenhardt to expire Oct. 18, 1915. The record showed that Dagenhardt struck his employer while defending himself.

SPRINGFIELD, Ill., Oct. 14.—James Lewis, colored, charged with the murder in this city of Mrs. Henrietta Schmidt, was found guilty here today by a jury in the circuit court and sentenced to life imprisonment in Chester penitentiary. Lewis entered the small grocery store of the husband of the woman he slew on the night of June 2, and grappled with the man in an attempt to rob. When the wife came to see what was the trouble, the negro shot her.

Attempts of the negro to feign insanity by crying out and fighting with deputies at the county jail were disregarded at the trial.

## ALLIES ATTACK ALL GERMAN FRONTS

Offensive is Begun in the Dardanelles to Keep the Turks Busy

BOMBARD BELGIAN COAST

Russ Continue Attacks in Galicia in Effort to Clear Austrians from Roumanian Frontier

PREDICT ITALIAN ASSISTANCE

LONDON, Oct. 14.—Sir Edward Grey, the British secretary, made a long statement in the house of commons today on the situation in the Balkans, but as he dealt with the diplomatic side of the question, he added little to the knowledge of the public and failed to satisfy curiosity as to the progress of the Anglo-French expedition landed at Saloniki. He did say, however, that Russian troops would co-operate "as soon as they were available."

Can Count on Italian Co-operation.

The French premier, M. Viviani had more cheering news for the allied countries, when, in the French senate he expressed the belief that "the allies can count on Italian co-operation in the Balkans."

Naturally there is much speculation as to how Italian and Russian assistance will be afforded. Italy has a large number of troops available and the means of moving them but Russia is handicapped in this respect and there is an inclination here to believe a report from Rome that Petrograd has asked Roumania to allow Russian troops to pass through her territory on the way to Bulgaria.

To grant such a request, however, would be construed by Germany as tantamount to a definite alliance with the entente powers and would doubtless result in Austro-German troops attacking Roumania. This, it is thought, might happen anyway, as Germany has already shown her displeasure at Roumania's refusal to allow munitions to pass through to Turkey and now it is reported that Germany has suspended the railway service and is holding up all foodstuffs consigned to Roumania over German railways until Bucharest more clearly defines its attitude toward the central powers.

Attacks on Serbia Proceeding.

These diplomatic questions are not delaying the military operations. The Austro-German and Bulgarian attacks on Serbia are proceeding apace. They are, however, meeting with stern resistance; and, although under constant attack since Oct. 5, the Serbians are giving ground only foot by foot. The extent of the Bulgarian invasion up to the present, according to a dispatch from Nish, consists of an advance over the frontier at one point of a mile. With this exception, says the report, the fighting line remains intact and the railways have not yet been reached. It is reported also that the allies have begun an offensive in the Dardanelles to keep the Turks busy. The Russians are continuing their attacks on Galicia in an effort to clear the Austrians from the Roumanian frontier and prevent them from sending any further reinforcements against Serbia. In fact there appears to be a general attack on all the German front. The British and French, Berlin relates, have attacked in Flanders and Champagne, while the German official report of the campaign in Russia is a record of counter-attacks against the Russians, who are endeavoring to regain the initiative.

Bombard Belgian Coast.

Even the Belgian coast is not exempted, British monitors having again been bombarding the German positions along that coast. British submarines in the Baltic thus far have sunk ten German ore carrying steamers and have paralyzed the ore trade between Sweden and Germany. This has caused some dissatisfaction in Sweden and it is charged two steamers were sunk within Swedish territorial waters. But the British assert they have been studiously observing international laws and have been sinking only German steamers.

State Treasurer Andrew Russell has been after the treasurer of Cook county and has compelled him to turn over a million dollars of tax money being held back after it properly belonged in the state treasury. The law provides that county treasurers must pay in all uncontested taxes by July 15. It seems that the treasurer of Cook county has frequently been allowed to evade this rule. Certainly the same law should be applied without favoritism to the officials of all counties alike.

In a western city the sale of red cross stamps for war relief work has received a temporary setback because of the discussion resulting from the stand taken by a prominent woman there. She had been assisting in the sale of stamps and one day announced her withdrawal from the work, explaining that she had decided that the raising of funds to alleviate suffering resulting from the war had the effect of lengthening out the conflict. She believes that if nothing were done for relief work that the horrors of war would be the more quickly impressed and that the dawn of peace would be nearer. At first thought there is some appeal in the argument but on second thought the reasoning is not sound.

Ex-President Taft in a recent address at Columbia university on the presidency, reiterated his former arguments in favor of a single presidential term of six or seven years. One of the most important reforms that Mr. Taft advocated in the same address was a change in laws which will make it possible for the president to veto certain sections of a bill and letting the remainder which he may approve, become a law. This added power for a president would frequently make it possible for desirable legislation to be placed on the statute books. It has quite often happened in the past that a president felt compelled to veto a law which in the main he approved, and it has often happened that the law makers have insincerely appeared publicly as favoring some measure which the people have desired, but have quietly inserted a clause—a "joker"—in the law which they felt sure would make it almost certain of presidential veto.

The presence of a Negro citizen in the city recently to enlist the cooperation of the Chamber of Commerce in promoting the trade of that vicinity with Jacksonville as opposed to cities to the westward brings to mind possibilities in the way of commercial development which merchants oftentimes are likely to neglect. Train connections with this city are good, sufficiently so in fact to give the visitors from that part of Pike county at least four hours in Jacksonville.

The fact that Jacksonville is dry is a strong argument with many Negro people who desire a change in trading places. Men have gone to Hannibal and missing their train have sought to come back by catching a freight. Four times within a year intoxicated men have met death beneath the wheels, it is said, and reports of these tragedies have in no wise detracted from the reputation of dry trading centers.

The "Buy in St. Louis movement" inaugurated some months ago is said to have aided general business conditions in that city to the extent of several hundred thousands of dollars. At least a thousand society women there signed the roll pledging themselves to buy their wearing apparel in St. Louis. Many of them had been in the habit of making purchases in New York and Chicago, but the appeal made to them for loyalty to their home city did not fail. This subject of buying at home has been often discussed in Jacksonville and more and more both men and women are realizing that it is not only their duty to buy at home, but that the results are better. The citizen who buys at home contributes to general prosperity and general prosperity means healthier business conditions and better civic conditions. Buying at home is based on local patriotism and on sound business judgment.

**Justice Craig a Candidate.**  
It is now understood that Justice Charles C. Craig of the Illinois Supreme court, will be a candidate for the Democratic nomination for governor. Justice Craig has been a long-time friend of Roger Sullivan and it is understood that he will have the Sullivan support as against Governor Dunne, who is to be a candidate for re-nomination. Some of the Democratic newspapers have been trying to make it appear that the breach which resulted between Governor Dunne and Sullivan when the governor came out openly against the Chicago man's candidacy for the senatorship, has been bridged over. But that estrangement was too severe and anybody at all familiar with politics knows that the wounds are by no means healed and that Sullivan will not be for Governor Dunne. He is not in the habit of "turning the other cheek"

to his political enemies, especially those within his own party.

With winter activities at the Jacksonville Y. M. C. A. beginning in lively fashion it may not be amiss to consider the magnitude of Association growth the country over. During the recent state-wide campaign for membership, attention was called to the fact that the value of Y. M. C. A. property in the United States totals a hundred million dollars and that the aggregate of association membership is now a million. Twelve million dollars are paid out each year for operating expenses and \$8,000,000 for new equipment. The sum contributed last year for foreign work was \$500,000. Such figures show the Young Men's Christian association in this country to have made a growth which exceeds that of the many of the nations largest business undertakings and material industries.

**Want Peoria Dry on Sunday.**  
There has been a good deal of reform talk in Peoria for months past, and the ministers of that city, encouraged by the action taken in Chicago, have started a campaign for dry Sundays in Peoria. Mayor Woodruff, who is said to be a candidate for the governorship nomination, may be somewhat reluctant to act in this matter, but after the example set by Chicago and Springfield there would not seem to be any other way than to declare for law enforcement. Possibly if he does not, the sheriff may take a hand and some of the Peorians have suggested that if neither official will enforce the law, that they will call upon the governor.

In Chicago the liquor interests started off on the theory that under Mayor Thompson's order they would have such strict observance that the people would soon rebel and that later on there would come an amendment of the law which would bring back the old conditions. It is hard to think of Peoria with closed saloons, but there have been stranger happenings than this, even, in state affairs.

**Woman Suffrage Figures.**  
According to a poll recently taken by the Literary Digest, the press of the United States shows a majority in favor of woman's suffrage. Letters were sent to the editors of one thousand papers and they were asked as to their personal opinion on the question, as well as to the attitude of their communities. Five hundred and twenty-six replies were received and of this number three hundred and ninety-nine were in the affirmative and ninety-seven in the negative and thirty-eight were undecided. In summing up the poll the Literary Digest says:

"In the suffrage states, where women already have encountered all phases of political experience, a larger number of communities actually are reported in favor of its continuance than are the editors themselves, the exact figures being 99 editors and 103 communities in favor, with only 7 communities doubtful and 6 opposed; while there are 12 editors opposed and 4 doubtful. "Out of 125 editors in the campaign states, 98 are in favor, 16 opposed and 14 on the fence. The community interest is reported as falling off somewhat, though it is still high. In this group which soon will cast its ballot the element of doubt nevertheless is strong, 46 communities being reported as uncertain, 62 in favor and 21 opposed."

## WOMEN IN THE NEWS.

Montreal—Lady Drummond, one of the most famous of Canadian women, is now a grandmother. A son has been born to the widow of Capt. Guy Drummond, the only son of Lady Drummond. The gallant captain was killed at the front, but his posthumous child will carry forth the great name of Drummond, so dear to Canadian women. Lady Drummond has received the news at the London hospital where she is engaged in Red Cross work. The grief over the loss of her only son is assuaged by the news that was sent last week by his widow. Lady Drummond organized charity bureaus in Montreal and was the first president of the Montreal Council of Women. She was for many years prominent in the movement for woman suffrage, and lent her aid ungrudgingly to every movement for the betterment of her sex. Her son fell at St. Julien while rallying the fleeing Turks who were falling back in confusion before the deadly gases from the German front.

San Francisco—That many girls in Europe have told her they would much prefer being a plural mate of a man who could give them a pleasant home where they could live a useful life to being old maids, is the statement of Miss Emma Lucy Gates grand-daughter of Brigham Young, the pioneer Mormon leader. Miss Gates advocates polygamy as the means of repopulating Europe, and she states from her personal observation in Europe that the women of the warring nations are today ready to accept polygamous marriages.

"I was twelve years in Berlin," she says, "and I have heard numbers of German women say they thought it far better to have a home and family on a polygamous basis than the system of monogamy which in Europe tacitly permits several affinites."

"I have known many families in Utah where there are several wives, and I have known many unmarried girls in Europe, where matrimony is the only career, and I am convinced that the woman who is one of the many wives is happier than the permanent spinster."

has been revived in America. Dr. Baltrusaitis is the first child born of Lithuanian parents in America. She is a full-fledged doctor a member of many local organizations of women, and her husband publishes a newspaper. It was at her home in Plymouth, Pa., that the movement in America to revive the Lithuanian language was started and now there are about 30 Lithuanian publications in this country. She writes for her fellow countrywomen in the native language, lectures among them, and is doing a great work in teaching them American ideals.

New York—The high cost of titles is growing in England. With the assessment of a 33 1-3 per cent income tax, many American girls are hard hit by an added burden that was never dreamed of when they made their foreign alliances. Here are a few of the American women who are most heavily assessed, and the estimated annual tax they will pay:

Mrs. William B. Leeds, formerly of Boston, \$300,000.  
Mrs. David Beatty, daughter of Marshall Field, \$200,000.  
Duchess of Roxburghe, nee May Goelet of New York, \$170,000.  
Lady Granard, formerly Beatrice Mills of New York, \$100,000.  
Lady Walastair, formerly Mrs. Seligman of New York, \$60,000.  
Duchess of Manchester, Cincinnati girl, \$50,000.  
Lady Cecil Bingham, formerly Mrs. Alice Channcey, \$40,000.  
Lady Newborough, formerly Grace Carr of Louisville, \$40,000.  
Mrs. John Jacob Astor, formerly Ava Willing, \$30,000.  
Duchess of Marlborough, Consuelo Vanderbilt, \$25,000.

It is estimated that many thousands of American residents in England will be affected by the new income tax. Mrs. "Billy" Leeds, who built a palace near London, is the hardest hit. She has been doing hospital work and has already contributed handsomely to the relief work. It is said that she is not complaining of the big income assessment, but declares she would double it if necessary.

## "The Juggernaut"

The Colossus of Modern Railway Drama.

## A Great Railroad Wreck on Broadway

Everything we would say about the story of THE JUGGERNAUT is so pale and poor and thin compared to the tremendous climax of this, the COLOSSUS OF RAILWAY DRAMA—that we shall give only an outline of the plot.

Two young men—one the brilliant son of poor parents—the other the dissolute heir of a great railway king, become friends at college.

One thinks he has accidentally killed a drunken rowdy in saving the other's life—they two only know this secret.

Both fall in love with the same girl—who marries the rich boy only after his chum has withdrawn from the race because of his poverty.

Years later one becomes president of his father's old railroad—the other a righteous, fearless district attorney. Both again worship the same girl—daughter of the old sweetheart of both—one with a father's deep affection; the other because she is her mother's counterpart.

The district attorney bitterly attacks the railroad in the courts. His former chum threatens to expose him as a murderer.

AND NOW—IMAGINE THE GIRL ON A TRAIN APPROACHING A BRIDGE WHICH CANNOT POSSIBLY STAND ITS WEIGHT. Both men know this. Both are rushing madly by automobile and motor boat to intercept it.

YOU SEE ALL THIS. See the girl's sweet face at the window of the flying train—feel the swaying of the automobile as it skids desperately around sharp turns—and the bounding of the motor boat slashing through rough waters.

BOTH MEN AND THE TRAIN COME CHASING INTO THE PICTURE AT THE SAME INSTANT—TOO LATE!

For a moment that seems an eternity, you feel yourself sitting almost under the tottering trestle as the enormous engine—a mass of whirling steel—leaps thundering and quivering into the empty air and falls shrieking to the swirling river.

THE BIG COACHES CRUMPLE LIKE CARDBOARD before your eyes and pile themselves up on the wreck—their passengers floundering and struggling in the debris.

AGAIN YOU SEE THE GIRL—AGAIN HER FATHER—AGAIN—THE MAN—

THE CAR OF JUGGERNAUT ROLLS ON.

But who are the victims?

COME AND SEE THIS TREMENDOUS SPECTACLE. That it was photographed by Ralph W. Ince, under the personal supervision of Albert E. Smith and J. Stuart Blackton, tells the story of its quality as a Feature Film.

THE JUGGERNAUT direct from the Vitagraph Theatre, New York.

MONMOUTH, Ill., Oct. 14.—Speaking before a large assemblage of Republicans from all parts of the state at a rally here tonight Senator Sherman declared that Illinois would undoubtedly be the real battle ground of the 1916 presidential campaign. Senator Sherman asserted that Senator James Hamilton Lewis had been picked as the man who could insure Illinois to Democracy should he be made the running mate of the president.

### ENGRAVED ANGLO-FRENCH NOTES MAY NOT BE READY FOR 2 MONTHS

Bids For the Engraving Are Being Received By Commission—Contract Will Probably Be Awarded Before Lord Reading Returns to England.

New York, Oct. 14.—Although tomorrow has been set as the date of making the first syndicate payment on the \$500,000,000 Anglo-French five-year notes, it was said today that the engraved notes themselves would not be available for about two months.

Bids for engraving the notes are being received by the Anglo-French commission and it is probable the contract will be awarded before Lord Reading leaves the United States next week. The engraving will be done in the United States and will be the largest single contract ever let for work of this character, except the engraving done in connection with the issuance of the United States Steel corporation's security. Long before the notes emerge from the engravers, however, they will be dealt in on the New York stock exchange. Temporary certificates will be issued which may be surrendered for the notes when the latter are completed. These certificates will be lithographed on specially watermarked paper and on each certificate there will be a number of imperfections known only to the Anglo-French commission and the underwriters. In this manner and others not disclosed precautions will be taken against counterfeiting. In addition, all certificates will be signed and countersigned by representatives of the syndicate managers. The task of signing the huge sheaf of certificates probably will keep the signers busy for several days.

Lord Reading and his associates will remain in New York about a week longer. They probably will go to Canada for a short stay before returning home. When they reach London they will discuss methods of spending the loan proceeds and so far as present plans go arrangements probably will be made to sell exchange there to British importers. As the contract stands, the entire proceeds of the loan are available only to the British and French governments. The bulk of the money will be spent for shipments made in these governments' behalf, but it was said authoritatively today there is no intention of withholding aid from private importers.

### TREAT CATARRH BY NATURE'S METHOD

Every Breath of Hyomel Carries Healing Medicated Air to the Infected Membrane.

Nearly every one who has catarrh knows how foolish it is to try and cure it with sprays, lotions, and the like. Temporary relief may be given, but a cure seldom comes.

Until recently your physician would probably have said the only way to help catarrh would be to have a change of climate; but now with a simple preparation called Hyomel you can carry a health-giving climate in your vest pocket and by breathing it a few minutes four times a day successfully treat yourself.

The complete Hyomel outfit is inexpensive and consists of an inhaler that can be carried in the vest pocket, a medicine dropper and a bottle of Hyomel. The inhaler lasts a lifetime, and if one bottle does not give permanent relief, an extra bottle of Hyomel can be obtained at any time for a trifling sum. It is more economical than all remedies advertised for the cure of catarrh, and is the only treatment known to us that follows nature in her method of treating diseases of the respiratory organs.

Coover & Screeve sold a great many Hyomel outfits and the more they sell, the more convinced they are that they are perfectly safe in guaranteeing to refund the money if Hyomel does not relieve.—Adv.

### Senator Sherman in Jacksonville Today

Jacksonville will be honored today by the presence of Senator L. Y. Sherman, whose candidacy for the republican nomination for the presidency is assuming larger proportions each day. It has often been said of Senator Sherman that he is of a Lincolnian type, and there is much about his appearance, and he has that rugged strength of character which remind one of the great Emancipator. But it must not be even suggested that Senator Sherman is an imitator, for nothing is further from his general characteristics. He is original to an unusual extent in his life, language and thought. His is a strong, vigorous personality grounded upon staunch principles and he has attained to his present proud position after surmounting great obstacles. He has gone up step by step, and with that gradual upward movement there has come a constant increase in strength of character, a greater wisdom, a wider vision.

Sensor Sherman had not been long in the senate before his colleagues and the public came to realize that as an orator he had unusual brilliance, in argument a logic difficult to combat, and that he would not enter discussion of any question until he had thoroughly and seriously prepared himself for an expression of his views. Such has been his continuous record during his term of service in the senate; and the fact of his wide vision, coupled with his evident desire to be informed and "right" on every big problem before congress, has had much to do with the enthusiasm which his name coupled with the presidential nomination has caused.

Sensor Sherman will make the address at the Founders' Day exercises of Illinois Woman's college this morning, of which institution he is a trustee. Naturally on such an occasion his address will not be of a political character. But, nevertheless, the present post of honor which he holds in national life, and the possibilities which the future has for him, add greatly to the interest of his visit at this time.

### MOTHER! GIVE CHILD "SYRUP OF FIGS" IF TONGUE IS COATED

If cross, feverish, sick, bilious, clean little liver and bowels.

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mothers! See if the tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeits. Sold here. Get the genuine made by "California Fig Syrup Company." Refuse any other kind with contempt.—Adv.

### Rippling Rhymes

AN GER

The delegate who truly wise is won't rave around and paw the dirt; for every time your temper rises, you do your system grievous hurt. Go ask the doctor, if you're doubting the truths I hand out by the ton, and he will say, "You bet! You're shouting! For anger shortens lives, my son." Oh, when with senseless rage you quiver, you heat your blood, oppress your heart, disorganize your patient liver, and quite upset your appetite. Not only that, but when you're frantic, and rant around and jaw and scold, the people note your curve and antie, and say your head should be half-soled. Employers, too, will not desire you, they will not like your hothead style; they'll try you once, and then they'll fire you so hard you'll bounce for half a mile. How does the fair immortal Lillian preserve her youth, while others slip? She says she always counts a million, before she lets her temper rip.

### LINDSEY ISSUES STATEMENT ON HAPPENINGS IN COURT

Criticizes Court's Action During Trial of Frank L. Rose and Conduct of Case by the Prosecution.

Denver, Colo., Oct. 14.—Ben B. Lindsey, judge of Denver's juvenile court, late today issued a signed statement on the happenings in the district court, which culminated in Judge W. D. Wright ordering his ejection.

During the trial of Frank L. Rose, charged with libeling Judge Lindsey, J. J. Sullivan, counsel for the defense in his argument criticized Lindsey and accused him of "tossing the country on a lecture tour on time that belonged to the taxpayers and of 'malicious' Denver and its people."

"You're a liar," interjected Judge Lindsey, at the same time starting for Sullivan and grabbing his clothing.

Bailiffs at the direction of Judge Wright, escorted Lindsey from the room.

In his statement Lindsey criticizes the court's action during the trial and the conduct of the case by the prosecution.

### FUNERAL SERVICES HELD FOR LATE JAMES W. CRABTREE

Last Sad Rites for Former Citizen in Charge of Dr. J. R. Harker—Burial in Diamond Grove Cemetery.

The funeral services for the late James W. Crabtree were held at the home of his son, Edgar E. Crabtree, 605 West State street, Thursday morning at 10 o'clock. A service had been held Tuesday afternoon at the Methodist church in Lawton, Okla., in which Mr. Crabtree had been an officer for many years.

The service here was in charge of Dr. Joseph R. Harker, and impressive in its simplicity. Dr. Harker read a number of scripture passages and then offered a fervent prayer. Mrs. Helen Brown Read sang "Crossing the Bar," and at the conclusion of the house service the cortege moved to Diamond Grove cemetery, and Mr. Crabtree was laid to rest in a flower covered grave, while twenty-six of his old comrades were gathered about.

The committal service was that provided by the G. A. R. ritual. Benjamin Wood, Capt. J. W. Melton, Van Wyatt, Major McDougall, and W. H. Jordan taking part. This service closed with prayer by Dr. Harker. The flowers were in charge of Mrs. G. A. Barnes, Mrs. F. E. Farrell, Mrs. Walter Ayers, and Mrs. Frank J. Waddell.

The bearers were F. J. Waddell, Felix E. Farrell, G. M. Lattrell, Frank Byrns, Marcy W. Osborne and J. W. Walton.

### PRICE FIXING IS SQUELCHED.

Detroit, Mich., Oct. 14.—The government's victory in forcing the Kellogg Toasted Corn Flakes Co. to abandon its system of price-fixing by October 15th has brought a score of telegrams and many letters to the U. S. District Attorney from all parts of the country from manufacturers who control the sale of their products as did the Kellogg company.

The decree eliminates the fixing of prices on products after they have left the hands and control of the manufacturer. This means that many other firms throughout the country will be compelled to change their selling methods at once, especially where they have attempted to fix prices under the protection of patents on cartoons containing their goods, as was the case in the Kellogg suit.

In accepting the finding of the government that the Kellogg people were doing business in violation of the Sherman anti-trust law the firm was given time to dispose of approximately two million cartons of breakfast food still on the market at the fixed price; but that after tomorrow, October 15, the price contract plan shall be abandoned.

### TOYS AND NOVELTIES

#### PLENTIFUL FOR SANTA.

New York, Oct. 14.—Thousands of cases of German-made toys are arriving, and many more are on the way, all to be delivered by Santa Claus when he makes his jolly round among the boys and girls at Christmas time. The troubles of old St. Nicholas is getting enough whirling and other things that have lots of action, have been relieved through the lifting of the embargo by the British government. The friends of Santa at Washington are said to have hinted to our British cousins that the American boys and girls must have their Christmas stockings filled, no matter how much fighting they cared to do in Europe.

The great big boxes contain many new things that American kiddies have never yet seen. Battleships that move about kewpie dolls with soldier hats, submarines, funny fellows that dance and swing their arms, roosters that jump and crow, and all kinds of dolls and pretty things for the girls.

### "ONLY ATE RAW EGGS," SAYS LADY

Mrs. Clara Van Natten Suffered From Indigestion and Stomach Trouble.

**TANLAC RELIEVED HER.**  
"I almost feel like another person," said Mrs. Clara VanNatten, who resides at 1226 Brown street, Springfield, Ill., while discussing Tanlac, the "Master Medicine," now being introduced in Jacksonville, and the great relief which she had obtained from the use of this preparation.

"Before I heard of Tanlac," continued Mrs. VanNatten, "my whole system was in a most deplorable condition. This came about from a weak stomach and inability of my digestive organs to take care of my food properly, which trouble was of long standing. My sleep was never sound and I felt weak and worn out most of the time. I had about given up hopes of obtaining any relief when I saw Tanlac advertised and decided to try a bottle.

"I bought a bottle of the medicine and began its use. The results were a great surprise to me. I feel so much better and seem to have new life and energy. Before I began taking Tanlac I could only eat raw eggs and drink a little milk without fear of suffering, but now I can enjoy radishes and other foods that are hard to digest, without the least inconvenience.

"It gives me the greatest of pleasure to recommend Tanlac, as it has brought me wonderful relief and I am sure it will help anyone who is troubled as I was."

Tanlac, the "Master Medicine," is now being sold in Jacksonville at the drug store of Coover & Shreve. —Adv.

Other players are to join automobile or hunting parties; while first baseman Hobitzel and catcher Cady are planning to become members of special playing team under the management of Secretary Bancroft of the Cincinnati club.

Twenty-two players shared equally in the money split. McNally, one of the eligibles who was with the team only a short time, receiving a smaller sum than the others. ### COMMITTEE RECOMMENDS THAT HEALY WITHDRAW SPECIAL POLICE

Action of Aldermanic Body is Taken After a Day of Spirited Wrangle.

Chicago, Oct. 14.—The council committee which has been investigating the strike of garment workers, adopted a resolution late today to recommend to the city council that Chief of Police Healy order from duty all the special policemen employed by the manufacturers to protect their plants. The action of the aldermanic body was taken after a day of spirited wrangle during which first deputy Chief of Police Schuetler threatened to resign rather than divulge the methods employed in gathering information concerning the movements and activities of the strikers.

Alderman Buck asserted that the inquisitorial body had been ignored by the manufacturers after attempts had been made to get their representatives to attend the meetings of the committee and tell their side of the case. The council meets next Monday night.

The strike, which now has been in progress for twenty days, is for increased wages and recognition of the union.

### Simple Way To End Dandruff

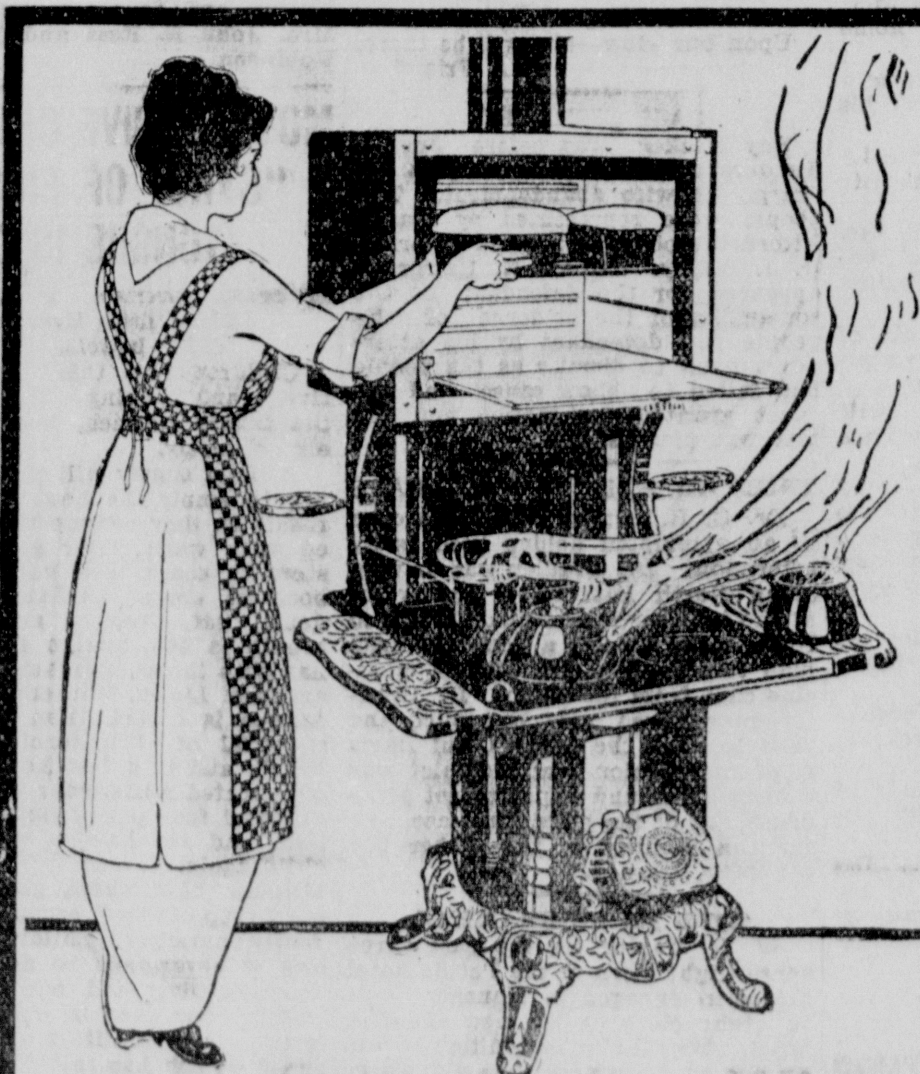

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You—Or No One Else—cares to be bald. Yet that is what will happen if your hair does not stop falling out.

## WORLD'S MARKET NEWS

**WHEAT SHOWS DECIDED WEAKNESS  
THE GREATER PART OF SESSION**

Market Closes Heavy 1/2 to 2% Cents  
Net Lower—Corn Sways With  
Wheat.

Chicago, Oct. 14.—Wheat showed decided weakness the greater part of the time today, although in the middle of the session the market for a while made a lively rally. Bearish cables formed the chief depressing influence. The market closed heavy 1/2 to 2% net lower with December at \$1.06 1/2 and May at \$1.07 1/2.

Corn finished 1/2 to 1c down to 1/2c. Oats 1/4 to 1/2c lower to 1/2c advance. Provisions varied from 1/2c decline to a rise of 10c.

In the late trade selling pressure on wheat developed with renewed energy ascribe the main to prospects of larger arrivals at spring crop terminals before the end of the week.

Considerable attention was also given to a bearish estimate from Rome as to the world's total yield, the fact being overlooked that the same estimate had been given out three weeks ago by the department of agriculture at Washington.

Corn swayed with wheat. The southern sections of the belt were offering new crop shipments more freely. In the oats crowd, good export business had a steady influence.

Weakness of other grain prevented any radical advance. Investment buying made provisions somewhat firm. Packers though, were inclined to sell on the hard spots.

## ONLY SIXTEEN, GIRL VERY SICK

Tells How She Was Made Well by Lydia E. Pinkham's Vegetable Compound.

New Orleans, La.—"I take pleasure in writing these lines to express my gratitude to you. I am only 16 years old and work in a tobacco factory. I have been a very sick girl but I have improved wonderfully since taking Lydia E. Pinkham's Vegetable Compound and am now looking fine and feeling a thousand times better."

—Miss AMELIA JAQUILLARD, 3961 Tchoupitoulas St., New Orleans, La.

St. Clair, Pa.—"My mother was alarmed because I was troubled with suppression and had pains in my back and side, and severe headaches. I had pimples on my face, my complexion was sallow, my sleep was disturbed, I had nervous spells, was very tired and had no ambition. Lydia E. Pinkham's Vegetable Compound has worked like a charm in my case and has regulated me. I worked in a mill among hundreds of girls and have recommended your medicine to many of them."—Miss ESTELLA MAGUIRE, 110 Thwing St., St. Clair, Pa.

There is nothing that teaches more than experience. Therefore, such letters from girls who have suffered and were restored to health by Lydia E. Pinkham's Vegetable Compound should be a lesson to others. The same remedy is within reach of all.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

## The New Baby is World's Wonder

Every tiny infant makes life's perspective wider and brighter. And whatever there is to enhance its arrival and to ease and comfort the expectant mother should be given attention. Among the real helpful things is an external abdominal application known as "Mother's Friend." There is scarcely a community but what has its enthusiastic admirer of this splendid embrocation. It is so well thought of by women who know that most drug stores throughout the United States carry "Mother's Friend" as one of their staple and reliable remedies. It is applied to the abdominal muscles to relieve the strain on ligaments and tendons.

Those who have used it refer to the ease and comfort experienced during the period of expectancy; they particularly refer to the absence of nausea, often so prevalent as a result of the natural expansion. In a little book are described more fully the many reasons why "Mother's Friend" has been a friend indeed to women for more than two generations. This book was prepared not only to aid the inexperienced but to enable so many women to have at hand the timely hints, suggestions and helps in concise and neatly printed form for ready reference. It should be in all homes. "Mother's Friend" may be had of almost any druggist but if you fail to find it write us direct and also write for book to Bradford Regulator Co., 303 Lamar Bldg., Atlanta, Ga.

What is said herein of "Mother's Friend" is but a repetition of the thoughts expressed by thousands of happy mothers who have successfully used this splendid external application.

## VIVIANI STATES FRANCE WILL PROSECUTE WAR TO THE END

Premier Declares Country Will Not Lay Down Arms Until Outraged Justice Is Revenged.

Paris, Oct. 14.—"Since France and her allies in spite of their attachment to peace, were obliged to enter the war, they will prosecute it to the end and their intimate union will assure the final triumph of justice and right," says Premier Viviani in a declaration to be published tomorrow in the Magazine Lectures Pour Tous. "France is not a country to be preyed upon," he continues. "She will not lay down her arms until after she has revenged outraged justice, consolidated forever with the fatherland the provinces ravaged by force, restored heroic Belgium and broken Prussian militarism in order to be able to reconstruct upon a foundation of right a generated Europe."

"Believing in our social, political and religious division, our enemies imagined this country's elements irreconcilable. What did they see? Workmen, employers, artisans, peasants, rich and poor men of all parties, all religious beliefs offering to sacrifice themselves, all fulfilling their duty in the hour of revolution in defending the liberty of the world. All understood that the most humble is useful to the fatherland; that from the general-in-chief whose admiration sang froids compels the admiration of the world to the very humblest each has an indispensable role. The glory is for all; the light illuminates every forehead."

"It is not only to our army whose heroism gladdened by incomparable chiefs, that we shall owe victory; it is also to the nation that has been able to accompany that heroism with a union of silence and serenity in critical hours. If those hours seem long let us continue to think of our country and everything will be easy for us."

Finance Minister Ribot, in the same issue of the magazine, speaking of the influence of finances upon the war will say:

"France will not lack resources to sustain her effort in this war that she did not seek but that she is determined to pursue without flinching. As far as concerns finances she can look upon the prolongation of hostilities without anxiety. The end of the conflict will not depend on our resources."

"Let France keep the faith she has in herself; let her continue to understand her financial duty as she has understood her moral duty and her military duty. She will thus aid in the final victory that world feels is inevitable and that it awaits in the interest of the liberty of peoples and civilization."

## WAVERLY.

The high school football team lost its first game of the season when Virden High defeated them by the score of 31 to 14. The boys are not discouraged, however, and have hopes of "hanging it on" Winchester Saturday when the Scott county boys come to Waverly for a game. The slogan this week is "Win from Winchester." In last Saturday's game the local boys were playing stronger in the last quarter than in any other part of the game, the second touch down coming just a few moments before the game closed.

## AUTO SHOW FEATURE OF WINDOW DISPLAY WEEK

Jacksonville Dealers Are Preparing to Exhibit Cars in Central Park Saturday.

The automobile feature of Window Display Week promises to be very interesting. All of the Jacksonville dealers have entered enthusiastically into the proposition made by the local newspapers that a "show" be given in Jacksonville Saturday. The park commissioners very kindly consented to have Central park used for this purpose.

All the dealers joined in the enterprise, but several of them have not received cars that they expected this week and may not therefore be represented as well as would otherwise have been true. There will, however, be from thirty to thirty-five cars on display arranged at the sides of the concrete walks leading through the park. This will afford the people of Jacksonville and surrounding territory an excellent opportunity for comparing the various automobiles that are offered by Jacksonville dealers.

It is the expectation to have the cars in place by 10 o'clock Saturday morning, and that they will be on exhibit there until 4 or 5 o'clock in the afternoon. A plat of the park has been drawn and space allotted to the various dealers in accordance with the number of cars that they will exhibit.

There are nineteen dealers in Jacksonville who offer twenty-seven different makes of automobiles, and as stated above, it is probable that about thirty machines will be shown. No prizes of any kind are offered and the sole purpose is to give dealers the opportunity of calling special attention to the merits of the cars they sell, and to afford the public the opportunity of examining the cars collectively. The dealers and the cars which they are expected to show are as follows:

S. W. Babb, Cadillac.  
Babb & Gibbs, Dodge.  
R. T. Cassell, Hudson and Studebaker.  
W. Cass Hamm, Haynes.  
Jacksonville Farm Supply Co., Auburn.

## VOTING CONTROL OF ROCK ISLAND PASSES FROM REID-MOORE INTEREST

Seven Directors Approved by Nathan L. Amster, Are Elected to the Board of Directors.

Chicago, Oct. 14.—Voting control of the Chicago, Rock Island & Pacific railroad company which is in the hands of a receiver passed from the hands of the Reid-Moore interests today. Seven directors approved by Nathan L. Amster, were elected to the board of directors, which consists of thirteen members.

Mr. Amster, talking to reporters, spoke guardedly of financial plans for the company.

"I don't want to prophesy what the new board will do," said he, "but an issue of preferred stock seems to be the plan most thought of now. The Rock Island has a very low capitalization at present \$75,000,000—and as one of the best engineers in the country who has investigated the property says that a greater capitalization would be justified."

Delay in the arrival of some of the Amster proxies caused two postponements of the meetings of stockholders but as the list of directors had previously been agreed upon by all interests the business was transacted in a few moments once the stock list had been checked.

The new directors are: Edmund D. Hulbert, Charles G. Dawes and John G. Shedd, Chicago; John R. Morison and William B. Thompson, New York; Nathaniel French, Dayton, Ohio; and Joel W. Burdick, Pittsburgh.

There was no other business before the meeting. The secretary of the meeting was unanimously instructed to vote the proxies for 440,624 shares as one for the directors named. The annual report was not ready for presentation but will be ready in a fortnight it was said.

## SIR EDWARD GREY GIVES RESUME OF BRITISH DIPLOMATIC OBJECTS

Foreign Secretary States That At the Outset England Desired That the War Should Not Spread.

London, Oct. 14.—The diplomatic situation was the subject of Sir Edward Grey's eagerly awaited statement relative to the Balkan situation which he delivered today to a crowded house of commons.

"I propose to confine myself," the British foreign secretary said, "to a resume of our diplomatic objects since the war. At the outset, we desired that the war should not spread and in common with our allies we assured Turkey that if she remained neutral, Turkey and Turkey's territory should not suffer. This situation was completely changed by the entrance of Turkey into the war and all obligations on the part of the allies then ceased."

"We and our allies then concentrated upon securing an agreement among the Balkan states and we used all our influence to secure an accord. Unfortunately the feeling in the Balkans is not one of union, but of division. It was clear nothing but a decisive, preponderant advantage for the allies would have enabled us to secure a policy of union."

"We were given to understand in the course of the negotiations, that, except with regard to Thrace, the central powers had offered to Bulgaria more to secure her neutrality than the allies could in fairness offer. The promises which induced Bulgaria to declare war were given by the central powers at the expense of her neighbors and without any corresponding advantage to them."

"We have remained throughout on friendly relations with Roumania who has favored the policy of a Balkan union."

## PENNSYLVANIA MARKS COMING OF FIRST WHITE MAN.

Towanda, Pa., Oct. 14.—The three hundredth anniversary of the coming of the first white man to Pennsylvania will be celebrated tomorrow by the Bradford County Historical Society. The visitor who came in 1615 was Stephen Brule, and his mission was one of war. He came to induce the local Indians living along the Susquehanna River to join the Hurons of Canada in making war on the Five Nations, which then occupied the region of Central New York.

Champlain, the French explorer, had espoused the cause of the Hurons, and organized his forces and those of the Indians. In 1615, when the war was at its height, Brule came to what is now known as Bradford county to recruit Indians. Five hundred warriors joined him, but they arrived at the scene of battle two days too late. Brule returned to Pennsylvania with his warriors and spent the winter in a palisade, exploring much of this section of the country.

The land where the palisade stood is now determined, and tomorrow, historians will celebrate the event with fitting pomp and glory the coming to the present confines of Pennsylvania of the first white man. Suitable exercises will make the occasion an important one in local history.

Clifford G. Roe.

Clifford G. Roe, of Chicago, who will be in Jacksonville Sunday and speak twice to audiences at Central Christian church, has the distinction of having written the first law aimed at white slavery to be passed by any state legislature. Since the passage of the "pandering act" in 1908 by the Illinois assembly, such laws have gone into effect in many states and more far reaching statutes have been enacted by the federal government. Besides being the author of the first white slave law in America, Mr. Roe is president of the American Bureau of Moral Education and was three times appointed by President Wilson as United States delegate to the International Purity congress. An assistant state's attorney of Cook county he was leader in the Chicago vice crusade. On his warfare against the double standard of morals, the Houston Chronicle, after a recent lecture, had this to say: "His studies into the subject and how to handle it have been big. He was attorney for John D. Rockefeller in his New York investigation for one year. He has acted as general counsel for the American Vigilance association and in almost every instance he has made himself felt. With others whom he has enlisted in the campaign, he has started in to educate the people and the settlement he most wishes to storm is the fortification of 'The Double Standard.'"

Sunday afternoon Mr. Roe will give his lecture, "The Price of Vice," to an audience of men at 2:30 o'clock. His subject at the regular evening service will be "The New Moral Awakening" or "A New Conscience and An Old Evil."

In doing so he singed his hair and burned his face quite painfully. As mentioned yesterday it was only timely discovery and prompt action that prevented a very serious fire.

## SCOTT COTNTY TEACHERS INSTITUTETO BE HELD IN BLUFFS

Teachers Will Address Gathering on Oct. 28-29—Bluffs High School Gets "Probationary Recognition" on Credited List.

The program for the teachers' institute to be held at Bluffs, October 28 and 29, will be ready for distribution, says the Bluffs Times. A copy of the program will be sent out to each teacher early next week. The executive committee feels that the program will be especially interesting and helpful. W. P. Morgan, president of the Macomb Normal, will give two addresses on Thursday and Mr. Hoffman, assistant state superintendent, will give two addresses on Friday. A number of the county teachers have places on the program and there will be plenty of music, both vocal and instrumental.

## "Probationary Recognition."

Supt. Thompson after a conference with the high school supervisor at Springfield Saturday succeeded in securing "probationary recognition" for the Bluffs high school. This means that the Bluffs high school has been recognized as a four-year high school for a period of one year only. If at the beginning of the next school year the physics laboratory is properly equipped, one or two minor changes made in the course of study, and a third instructor is added to the teaching force in the high school, the school will, after personal inspection, be given permanent recognition.

## DAYLIGHT ROBBERY

AT FRANKLIN The branch of the Jacksonville Farm Supply company at Franklin was the scene of a robbery Wednesday morning. The cash register was robbed of cash to the amount of about \$30. Mr. Bland, one of the managers of the store, had occasion to leave the room for a few minutes. There were three people in the place at the time. When he returned he found the register minus the cash.

Sheriff Graff was notified Thursday and with Deputy Sheriff Andrews and States Attorney Tilton went to Franklin to investigate. It is thought that the robbery was committed by local talent. It is probable that warrants will be issued and served today for the suspected parties.

## RESOLUTIONS FOR DR. G. V. BLACK PASSED BY MEDICAL SOCIETY

Express Appreciation of Former Member of Society and of Medical Club—Dr. T. G. McLin Reads Paper on Wasserman Reactions.

Dr. T. J. Pitner, Dr. A. L. Adams, Dr. J. W. Haingrove and Dr. T. G. McLin as a committee on resolutions presented the following appreciation to members of the Morgan County Medical society Thursday evening, assembled for their October meeting in the lecture room at the public library. A Wasserman report on 250 consecutive female admissions to the Jacksonville State hospital was read by Dr. McLin and discussed by the physicians generally. The report showed the percentage of patients manifesting blood reaction and the per cent showing positive reaction on the spinal cord. Dr. McLin's report will in all probability be published in an article in the Illinois Medical Journal.

Following are the resolutions adopted by the society:

Whereas, our former member, and most of his life, citizen of Jacksonville and for the last eighteen years dean of the College of Dentistry in the North Western University, has recently passed away:

Resolved, that the members of the Morgan County Medical society at this, its first meeting since the death of Doctor G. V. Black desire to express their deep appreciation of the worth and the work of our departed friend and colleague.

Dr. Black, known throughout the scientific world for his original researches, and large contributions to our knowledge is not without honor in his old home. His colleagues here listened eagerly to whatever he had to say and what he said was always worth while. He was open-minded, free from egotism and never dogmatic in discussion. Dr. Black was an indefatigable worker and constantly searching for the secrets of nature. His contributions to science and his voluminous writings have been chiefly in the department of dentistry, but we are also indebted to him for extending our knowledge in general pathology.

We were not only a great student, but skilled in operative work, and the application of scientific principles. To him is due the invention of the dental engine and many other means and methods in general use in dentistry. He has been fitly called the "Father of Modern Dentistry". We cannot over estimate the value of his services. Everybody is indebted to Dr. Black.

All of us who knew him here regard it as a great privilege to have met and worked with him in this society, in the Jacksonville Medical club and to have known him in every day life. He was always most cordial and friendly and never expressed unkind criticism of others. He was approachable and interesting in conversation and ready to communicate his observations and views, but without self assertion or evincing the slightest sign of a sense of superior knowledge. He was ever manifesting a spirit of inquiry. Every day he investigated something. It was his life long habit of mind. Hence we can understand his vast achievements.

Dr. Black and the late Dr. David Prince took a leading part in the organization and development of the medical library, which for first fifteen years was the work of a voluntary association. The considerable collection of books and journals was transferred to the Morgan County Medical society and is the basis of our large medical library. Dr. Black was most of the time secretary of the library association and to his activity is largely due the success of that movement, which began nearly forty years ago.

Dr. Black was also one of the original members of the Jacksonville Medical club and its efficient secretary for several years.

Our association with him has been most delightful and profitable and his death is a great personal as well as professional loss. We shall ever cherish his memory and hold him in grateful remembrance. We extend to the family our most sincere sympathy.

## JAMES MATTHEWS RETURNS FROM VISIT IN EAST.

Among those who left Jacksonville in September, to be in line when the grand review marched down Pennsylvania avenue at the Grand Encampment in Washington, was James Matthews who has long been a resident here.

Born at Fort Tobacco, Maryland, on the Potomac river below Washington and being familiar with the Capital city and surroundings sixty years ago or more, his visit back to the old familiar scenes was full of interest to him. Mr. Matthews visited at the home of his son in Washington, down at his old home place in Maryland and at the home of his sister in Philadelphia and after a very pleasant trip, arrived Wednesday night and says Jacksonville looks good too.
